

# Aromatherapy

The idea behind aromatherapy is to put a person in a state of euphoria, of not having a care in the world.

We have a line of such flavors and some fragrances that do just that.

Our aromas will send you back to your teens, young adulthood and present days. They help you feel young again, wishing you were back on that tropical island with your special friend. Ah! Fond memories.

Aromatherapy awakens the senses and rejuvenates the soul. Herbs and essential oils, such as Lavender, Chamomile, Sage and more work together to de-stress and relax a person. These aromas and flavors go into products we use everyday to help get us through our busy days. Sit back and relax!

## **Aromatherapy Flavors**
